## Chamber To Launch \$85,000 Bond Drive For New Industry Here

The Gettysburg Chamber of Commerce will launch an \$85,000 bond campaign next week with which to form a local corporation for the purpose of erecting a modern industrial plant, 100 by 350 feet, on the old brick yard site, which will then be leased to the Inductive Equipment company for the manufacture of transformers.

This was the outgrowth of a membership dinner-meeting Friday evening at the Hotel Gettysburg attended by 45 members of the civic organization.

It was announced by John R. Gaston, at present division manager and an engineer for the Federal Telephone and Radio Incorporated, that the new company, which will be incorporated in Pennsylvania if Gettysburgians subscribe to the bond issue and which he and his associates have recently organized, has a backlog of orders that require the beginning of manufacture by next December. Mr. Gaston is a graduate of Gettysburg college.

### Must Have Decision in 3 Weeks

Gettysburg's decision must be definitely known within the next three weeks. The time limit has been set to permit construction of the large building in time for the December opening.

The new firm will start with a payroll of 50 employees. This will be increased, said Mr. Gaston, to around 250 within six months and "to approximately 1,100 within two or three years. Skilled labor will be brought to Gettysburg but the majority of the employees will be recruited from Gettysburg and vicinity."

Mares Sherman was appointed chairman of the committee to sell the bonds. Other members of the committee include:

A. E. Hutchison, John H. Basehore, L. L. Deatrick, P. W. Stallsmith, Ralph Z. Oyler, Nick Meligakis, George R. Martin, E. W. Thomas, John H. Kadel, George T. Raffensperger, Dr. R. D. Wickerham, Henry W. Garvin, Irvin Bierer, Charles Lauver, John Teeter, R. W. Wentz and George M. Zerling.

### Major Industry

Mr. Gaston stated that the electronics industry can be compared with the auto age in development a number of years ago. He said that it is growing steadily "until today it is ranked as one of the new major fields of industry." He explained that his firm is now making samples for presentation to prospective customers and that sufficient contracts have been assured to guarantee operation of the company for some time. He declared that the field was unlimited and that he and his associates are confident of a growth that should make the new company one of the major industries of this vicinity.

James K. Elderkin, plant engineer of the transformer division of the Federal Telephone and Radio, Inc., and vice-president of the Forest Manufacturing company, a subsidiary, declared that the transformer industry is unlimited in its scope of expansion. He is a former associate of the late Thomas A. Edison and holds a number of the basic patents of the company.

### Need 35,000 Feet

The new company requires a plant of 35,000 square feet, with rail and highway facilities and the brick yard site is adequate "and especially adapted to the type of construction we need."

The new firm will lease the new building on terms acceptable to the local corporation and the spokesman said he believed that the new firm will be in position to acquire the property "within three or four years." Edgar K. Markley, Esq., suggested that the local bond holders should organize a local corporation under an appropriate name, and execute the lease and mortgage with the new firm and retain title to the property until the bond issue has been paid for.

When asked whether he felt there was sufficient labor here to staff the new company Mr. Gaston said that he had not made a thorough survey but felt satisfied that with the present supply and the return of veterans his firm could secure ample help without infringing on other industries in operation here now.

Mares Sherman spoke in support of the new enterprise and appealed to the Chamber membership to co-operate in the financial campaign to sell the \$85,000 bond issue. Bonds will range in denomination from \$100 up and will bear five per cent interest.

The new firm has an option on 40 acres of the brick yard property.

Henry Garvin, president of the Chamber, presided at the meeting.

## Lt. H. E. Spangler Receives Discharge

First Lt. Harold E. Spangler, East Berlin, received his discharge from the Army Friday at Indian town Gap.

S. Sgt. Philip E. Alwine, High street, New Oxford; T. Sgt. Albert S. Townsend, York Springs, and Warrant Officer Percy A. Springer, 220 Steinwehr avenue, have arrived at Indian town for redeployment and will receive furloughs prior to re-assignment.

## VFW Post Home Fund Now Totals \$2,339

## 139 GROUPS IN ADAMS COUNTY LIBRARY ASSO.

A list of 139 group memberships in the Adams County Free Library association, including clubs and other organizations throughout the county with a combined membership said to total over 5,000, was announced today by O. H. Benson, president of the Adams County Free Library association.

These group charter memberships, Mr. Benson said, are in addition to the more than 3,100 individual memberships subscribed by individuals throughout the county. The library chairman also listed 20 individuals and organizations who enrolled as life members in the association at \$25 each.

The 3,100 individual memberships, it was stated, come from every town, village and township in the county with the prevalence of farm families showing a "substantial rural interest" in the project to provide a free library here.

The initial minimum goal of 3,000 members already has been passed but more members are being solicited so that active library service may be started as soon as possible.

### Group Memberships

The following are group memberships of \$5 each except the Gettysburg Chamber of Commerce which paid \$25; George F. Eberhart, \$25; G. W. W. Orchard, Prickett estate, Mrs. R. E. Rice and the Upper Adams County Lions club which each paid \$10:

Adams County Fish and Game Association; National Council of Catholic Women; Queen of Peace Council of Pa. Catholic Beneficial League; Albert Lentz Post, American Legion; Biglerville National Bank; People's Drug Store; Kenneth M. Trayer; National Council Catholic Women, St. Ignatius Catholic church; St. James Lutheran church; Mennonite Church of Fairfield; Trinity Reformed Sunday school; Benderville National bank; Dr. and Mrs. Charles Huber; Gettysburg DAR; Eastern Star Chapter 392; Rock Top club; Woman's club; Gettysburg Aerie POE; Mt. ## COURT UPSETS APPEAL OF KIN TO BREAK WILL

In an opinion handed down in court here this morning Judge W. C. Sheely dismissed an appeal taken by several brothers, sisters, nieces and nephews in an effort to "break" the will of the late Mrs. Clara Adella Stavelly, of Germany township, disposing of an estate estimated to be worth about \$20,000.

The relations in their petition to the court sought to show that Mrs. Stavelly was not a person of sound mind at the time she executed her will. The court also had to decide whether the will had been "procured by undue influence, duress and constraint practiced upon the decedent by Amos L. Spangler and others."

The petition which sought to have an issue drawn for jury trial was denied and the appeal from the decision of the register of wills admitting the Stavelly will to probate was dismissed in the six-page court opinion.

### Nephews Are Beneficiaries

Franklin R. Elgham, Esq., was the attorney for the "proponents," the persons offering the will for probate. Robert M. Laird, Esq., Hanover, and E. V. Bulleit, Esq., were counsel for the petitioners who sought to have the will set aside.

Mrs. Stavelly, an 82-year-old widow, died May 8, 1944. The will in question was executed November 13, 1943, the day after she had been taken ill at her home near Littlestown and moved to the home of a nephew. Principal beneficiaries under the will are Amos and Luther Spangler, nephews. Wilbur A. Bankert, Littlestown banker, who wrote the will at Mrs. Stavelly's direction, said the woman told him she wanted to give her money to "those who are good to me, my nephews, Amos and Luther."

### "Fantastic" Testimony

The court described as "fantastic" some of the testimony given in court in May by some of the contesting relatives and held: "This testimony does not establish either lack of

## STRICKEN AT WHEEL OF CAR

John Clayton "Mulligan" Myers, 71, West High street, New Oxford, died suddenly from a heart attack Friday afternoon at 2:30 o'clock on the road from East Berlin to Franklintown, near Danner's schoolhouse, Washington township, York county.

Myers was driving his auto when he became ill and pulled into the lane at the home of Mrs. Elsie Moul just before he was fatally stricken, according to Edward J. Roland, New Oxford, who was accompanying him. A physician was summoned but death occurred before his arrival. Death was the result of acute dilatation of the heart due to chronic myocardiitis, Curtis E. Forry, York county deputy coroner, investigated.

He was a son of the late Moses C. and Sarah (Phillips) Myers.

Surviving are his widow, the former Edith Romaine Colestock; one sister, Mrs. Guy Klingel, New Oxford, and one adopted sister, Mrs. Annie Emler, Hanover R. 3.

Funeral services from the W. A. Feiser funeral home, Hanover, Tuesday morning at 10 o'clock conducted by the Rev. George E. Sheffer, pastor of the New Oxford Lutheran church of which the deceased was a member. Interment in the New Oxford cemetery. Friends may call at the funeral home Monday evening.

## Then The Lord Took Him "The Rest Of The Way"

Fort Worth, Texas, Aug. 4 (AP)—The gallant soldier who survived three years of hell in Japanese prison camps died yesterday after 31 days of heaven at home.

Cpl. James E. Newman, 25, whose fight against disease touched the heart of the nation, just couldn't battle one more malady.

Newman, the soldier who came home to die, suffered an asthmatic spasm yesterday morning.

His doctor relieved this with an increase of oxygen, and gave him a stimulant. The young soldier went into a sound slumber. He did not recover consciousness, and died at 6:30 p. m. (EWT) "from sheer exhaustion," the doctor said.

There was momentary hysteria in the little house where hopes had been high that he would recover.

His mother, who had said "the Lord will see him through the rest of the way," collapsed with grief.

Doctors on two hemispheres had given up hope.

First, doctors at Army hospitals in New Guinea told him his case was hopeless. Beri Beri, starvation diets, lack of proper medical treatment had brought tuberculosis of the throat, lungs and stomach.

But Newman wouldn't give up. He wanted to come home to the little white cottage where he had left seven years before.

He said his mother's cooking might do more than medicine.

He was returned to the United States, but again doctors shook their heads. His six-foot-two-inch frame had wasted to 92 pounds. Once he weighed 170.

A Fort Worth physician said he had a faint chance to survive.

But shortly he began to lose ground. He lost his appetite. He was in continuous pain, which had to be blacked out with morphine. Still he smiled.

Then the Lord took Corporal Newman "the rest of the way."

## May 30 Committee For '46 Selected

A committee of nine to make arrangements for local observance of Memorial Day in 1946 was appointed by Commander Harry E. Koch at the regular meeting of the Gettysburg camp of the Sons of Union Veterans Friday evening in the post room on East Middle street.

The committee includes Henry T. Biddle, J. E. Snyder, William L. Meals, Esq., William I. Shields, David A. Tawney, W. Peston Hull, Harry G. Deatrick, Fred G. Pfeiffer and Mr. Koch.

Several candidates for membership in the camp were initiated.

## HUCKLEBERRIES ON MART TODAY: CORN GOES FAST

Huckleberries—only a few of them—made their appearance at the Farmers' market this morning and the first pears of the season were offered while a short supply of roasting ears "went like hot cakes while they lasted."

Summer Rambo apples were in good supply at 15 cents a box. 25 cents a quarter peck and 45 and 50 cents a half peck. The price per bushel was \$3 at most stands. The first crab apples of the season were offered at 15 cents a quart box and 25 cents a quarter peck.

Hale-Haven peaches were on sale today at \$3.50 per bushel but the growers said the peaches had been so hard hit by the brown rot that the crop will be short. Today's clearing weather may help save what remains of the crop. They said Fulton peaches sold at \$2.50 and \$2.90 per bushel and most growers asked \$3 per bushel for the Golden Jubilee.

### Limas Next Week

A few Bell pears were on sale at \$4 per bushel. Plums were 25 cents a quart box. A few boxes of sour cherries were on sale at 30 cents a quart box. Red raspberries were 25 cents per pint. The huckleberries, said to be scarce this year, sold at 60 cents a quart box.

Tomatoes were plentiful this morning at 25 to 35 cents a quart box and \$1.75 to \$2 per half bushel basket. The sweet corn ranged from 45 to 60 cents per dozen ears. New potatoes of good size were offered at a number of stands at 25 cents a quarter peck and 45 cents a half peck. Cabbage was abundant at seven to 10 cents a pound. Cucumbers priced ranged from one to 10 cents each. Onions were six cents per pound.

One grower promised lima beans for next week but most of the farmers said it will be several weeks before their limas are ready. String beans were abundant at 15 cents a quart box and 25 cents a two-quart box or a quarter peck. Peppers were five cents each at some stalls while squash prices ranged from 10 cents each to two for five cents. Carrots, red beets, radishes and onions were offered at 10 cents a bunch. Shelled beans were 20 and 25 cents a pint.

Eggs were priced from 52 to 54 cents a dozen and sweet cream was 30 cents per pint. Cheese was five cents a package. Dressed chicken prices remained at 60 and 61 cents for fryers and 59 cents for heavier fowl.

Celery plants were offered at 75 cents per hundred.

## SHEELY WILL RELIEVE REESE

Judge Fred S. Reese left Carlisle Thursday morning for Washington, D. C., on the first leg of his journey to Germany where he will assist in the task of revising some aspects of German civil laws.

While he is gone, his work as president judge of the Cumberland county courts will be handled by Judge W. C. Sheely who will make regular trips to Carlisle from Gettysburg. Upon departure Judge Reese said the length of his absence is uncertain and may range from several weeks to three months. The trip to Europe will be made by plane.

With the temporary rank of colonel, Judge Reese in Germany will work under the commanding general in charge of the Public Health and Welfare Division of the U. S. group on the Allied Control Commission. He will help to establish a system of law regulating health control, welfare, religion and education. His work, he understood, will require him to divide his time between Berlin and Frankfurt. The jurist is familiar with the German language.

### OUTDOOR SERVICE

The Christian Endeavor society of the Marsh Creek Brethren church will hold its vesper service on the lawn of the church Sunday evening at 7:30 o'clock. The Rev. Roy K. Miller, pastor, will be the speaker. Special music will be presented.

# MacArthur Extends Command To Form Big Invasion Force

By LEONARD MILLIMAN Associated Press War Editor

General MacArthur, forming "a mighty invasion force for the final conquest of Japan," disclosed today he has added another airforce to the powerful sky armada pounding Japan so thoroughly that "not a single area of safety" remains in all the sacred islands.

The on-to-Tokyo leader announced he has taken over command of Okinawa and other Ryukyu island bases, added them to the Philippines as "a great semi-circular base" for invasion.

The 13th "Jungle Air Force" is being moved up from the Philippines to join four other Okinawa-based air forces in hammering the enemy homeland. The 13th is part of Gen. George C. Kenney's Far Eastern Air Forces which so far this year have destroyed or damaged 2,846,932 tons of enemy shipping and 1,375 planes.

### Heavy Concentrations of Air Power

The Fifth and Seventh Air Forces, also under Kenney, have already moved into Okinawa, and Lt. Gen. James Doolittle's Eighth (Superfort) Air Force is scheduled to start operations from the same island this month. These forces are in addition to the 20th (Superfort) Air Force in the Marianas, and two fleet and two marine air wings on Okinawa.

"In the face of the current indiscriminate bombings by American planes, the enemy's government controlled Domei News Agency complained, "there certainly is not a single area of safety throughout Japan."

Tokyo reported a handful of B-29s and Navy bombers were over the Tokyo area today, hit yesterday by Mustang fighters from Iwo Jima and Fleet air wing 18 from Okinawa. Between them they wrecked 19 Japanese planes, 13 vessels ranging from a small freighter-transport to fishing boats, 20 locomotives, trains and ground installations.

### 13 Ships Downed

Thirteen more enemy vessels were knocked out by Air Forces operating in southern waters under MacArthur.

Japanese suicide planes sank one U. S. ship and damaged another in one of their now rare counterattacks at the growing Okinawa base 350 miles south of Japan. The attack Sunday was announced today by Admiral Nimitz, co-commander with MacArthur of the on-to-Tokyo forces.

The Mikado today posthumously decorated his ranking Army and Naval commanders on Okinawa who committed suicide in the face of defeat.

Within the next couple of weeks General Spaatz, who retains command of Army strategic air forces, should announce that General Doolittle's B-29s have joined the aerial invasion of Japan. Presumably part of their job will be to help Marianas-based Superforts in blockading Japanese harbors with parachute-sown mines and peddling propaganda. B-29s are delivering the "Rakassan Parachute News" to Japan and within seven weeks plan to boost weekly circulation from 1,000,000 to 8,000,000.

## Is Arrested On Bad Check Charge

Charged with securing about \$8 through a fraudulent check issued to the Schwartz feed store here, William John Jones, 60, Harrisburg, was arrested in a local bar room Friday by Chief of Police Glenn Guise. The man had a bottle of whiskey, a bottle of wine and \$3 in his pockets.

Arraigned before Justice of the Peace Robert P. Snyder, Jones signed a plea of guilty and was committed to the county jail to await sentence.

Jones bought two bags of feed at the local store amounting to about \$7 and gave the \$15 check on the First National bank in payment, receiving the difference in cash. When he failed to call for the feed, police were called and it was found there was no account in Jones' name at the local bank.

### Property Transfers

John C. and Mina Scott, Trenton, N. J., and all of the other heirs-at-law of George Scott, Gettysburg, sold to Charles Elmer Herr, Gettysburg, a property in Gettysburg.

The Theological Seminary of Gettysburg sold to Donald C. and Mildred E. Reel, Gettysburg, a property on Buford avenue.

### KILL TWO SNAKES

John Wetzel, Orrtanna R. D., killed a copperhead snake Friday while mowing brush at his home after having stepped on the reptile. His father, Luther Wetzel, who was assisting in the work, killed a second snake a few minutes later.

### RELIEF PAY INCREASE

Direct relief payments to needy residents of Adams county for the week ending Friday showed an increase of \$2.40 over the previous week according to an announcement by Ramsey S. Black, state treasurer. Fifty-six persons received checks totaling \$295.50 for the last week.

# NO SOLACE FOR JAPAN IN BIG 3 ULTIMATUM

By J. M. ROBERTS, JR.  
(AP Foreign Affairs Analyst)

There is no solace for Japan in the silence surrounding Pacific war discussions at Potsdam. No Russian declaration of war is necessary to emphasize what the Allies intend to do with the aggressors. If the Japanese can take any heart from the blueprint for conquered Germany, they are welcome to it.

For anyone who may be disappointed over absence of word regarding Russia's entry into the war, a prior look which might have prevented the raising of immediate hopes would have revealed this situation:

There was no anti-Japanese propaganda campaign in Russia, such as almost certainly would precede any break. If Russia should enter it would be more valuable just before our invasion of Japan, which is still some time away. Russia's armies still are largely deployed in Europe.

**Look For Break**  
Japan's position is much the same as Germany's was a year or so ago—fighting, hoping, looking for a "break." Adding another log right now to the fire which they have built under themselves couldn't mean too much.

It might even be argued, although we won't go into it now, that the Japanese would actually prefer to surrender before, not after, Russia comes into the war. The Germans certainly showed a preference for placing themselves in the hands of the western allies.

But aside from all this the Japanese must have gotten from Potsdam some jolts more jarring than anything Russia might have done or is to do. After all Russian entry into the war will affect principally the speed of its conclusion, not its result.

## Reduced To Inferior

The picture of Germany-to-come, and the Sino-British-American ultimatum, however, are matters directed against Japan's own heart. There a people, accustomed though they are to feudal oppression yet proud of their industry, can see themselves being reduced, as they would put it, to the economic standard of their "inferior" neighbors—which for them will be reduction indeed. They can see a Japan which is an empire only in the sense that some ineffective little man may be permitted to call himself "emperor," his domain consisting of the Japanese home islands under strict foreign control—an abasement which might make death preferable for him and many another Japanese. They can see the end of the industrialization which made them "superior" in the Orient.

## See Enemy Advance

Above all, they can see the advance of an enemy who is less "advanced" than inexorable, a conqueror who does not ravage, but who has grimly-set jaws about the business in hand. And they must know that the Sino-British-American ultimatum would not have been delivered from Potsdam during the conference with Stalin unless the situation had been thoroughly gone over with him; and that there remained between him and China no bone of contention which was not subject to amicable negotiation.

So dies Japanese hope for a Russo-Chinese situation which could endanger Allied unity, as well as her hope for anything except a relentless peace.

## Seminary Graduate Given New Pastorate

The Rev. Roderic N. Senft, of York, will succeed the Rev. Charles C. Frazier as pastor of the Fayetteville Lutheran parish, which includes St. Paul's church at Fayetteville, St. Luke's church at Scotland and St. John's church at Greenville, it was announced Friday. Mr. Frazier resigned his duties to enter the Navy as a chaplain on January 30 of this year.

Rev. Senft was pastor of Plum Creek Lutheran church, in Northumberland county, which he served for three years and eight months. He was born in York in 1916, and was graduated from York high school in 1934, from Gettysburg college in 1938 and received his degree at the Gettysburg Lutheran seminary in 1941. He is married to the former Miss Irene R. Hanzlik, of Baltimore. Mrs. Senft is a graduate of Western high school, Baltimore, and of Gettysburg college. They have one child, Ann Elizabeth, at home.

Rev. Senft has spent nine years at Camp Nawakwa, the Lutheran leadership training camp near Arendtsville, as a counselor of boys, and Mrs. Senft has spent six years there as a counselor of girls.

Mr. Senft will assume his duties this Sunday. He has been granted a 15-day vacation beginning August 15.

## FILES DISCHARGE

The honorable discharge of Gerald D. Plank, Table Rock, from the Army Air Force, given July 9 at Camp Blanding, Fla., has been recorded at the court house. Plank served since May 26, 1942. A truck driver, he took part in the Normandy, Northern France and Rhine-land campaign.

## Lewis Is Mentioned For European Post

Moscow, Aug. 4 (AP)—The name of John L. Lewis, head of the United Mine Workers of America, is being mentioned today in responsible foreign diplomatic circles in Moscow in connection with an important job in Europe.

No details were available. Lewis, at his home in Alexandria, Va., declined to comment on the report.

## Shoe Rationing May End In 1946

Washington, Aug. 4 (AP)—A generous supply of inexpensive shoes is slated for ration-free days soon in a move probably heralding the end of all footwear rationing early next year.

The OPA is planning to remove temporarily from rationing a wide variety of shoes retailing for \$3.50 or less a pair.

These plans became known as a War Production Board official predicted that shoe rationing probably will end altogether early in 1946.

"If Japan surrenders sooner, shoe rationing will go out the window shortly after V-J day," said this official, who asked that his name not be used.

Deep cuts in military requirements are the basis for the optimistic forecast, the official explained, adding that it "seems logical" that the Army and Navy shoe needs may be trimmed again before the year is over.

## Al Lopez Catches In 1800th Contest

Pittsburgh, Aug. 4 (AP)—When Pittsburgh Pirate backstop Al Lopez donned his regalia for last night's game with the St. Louis Cardinals, it marked the 1800th game of his major league career and brought out the fact he had set a major league catching record.

Gabby Hartnett, former Chicago Cub catcher and manager, set the previous mark, 1,793 games, established in 20 years.

Lopez had played in 1,793 games before this season opened. He needs to play in 42 more this year to make it 13 seasons in which he has caught 100 or more games. This will set a National league record and the Bill Dickey's major league mark of 13 seasons.

Livelsberger, Sr., Edge Grove, Hanover R. 4, at a wedding which took place Thursday evening at 8 o'clock in the rectory at Conewago chapel. The double ring ceremony was performed by the rector, the Very Rev. John P. O'Donnell.

They were attended by Mr. and Mrs. Earl Noel, brother-in-law and sister of the bride.

The bride was attired in a powder blue street length dress with black accessories, and had a corsage of pink roses and stephanotis. The matron of honor wore a black dress with black accessories, and had a corsage of yellow roses, stephanotis and delphiniums. Immediately following the ceremony, the newlyweds left on a wedding trip to an unannounced destination.

The bride is employed by the Royal Jewelers, Hanover. The bridegroom, who had been a patient at the Plattsburg Convalescent hospital, Plattsburg, N. Y., is now spending a 30-day furlough at his home. At the conclusion of his furlough he will report to Greensboro, N. C.

The Rev. Elmer Drumm, New Chester, performed a wedding ceremony on Thursday in which Gerhard W. Milleville, Niagara Falls, R. 1, N. Y., and Miss Miriam A. Zepp, New Oxford R. D., were wed. The bride is a former school teacher in Adams county.

## Four Members Of Family Are Killed

Lansdale, Pa., Aug. 4 (AP)—Four members of a family were killed last night in the crash of an automobile in which they were riding and a Lehigh Valley transit company trolley near here.

The dead were: Mrs. Ella Souder, 55, of near Telford, Montgomery county; her daughter, Mrs. Esther Hedrick, 28, and her two children, Harold, five, and Ella Mae, five weeks. Two other children, Donald Hedrick, four-year-old son of Mrs. Hedrick, and Dale Ruh, 3, grandchild of Mrs. Souder, were reported in serious condition in the Elm Terrace hospital.

## Civilian Guard Commits Suicide

Middletown, Pa., Aug. 4 (AP)—William J. Deakney, 45, Harrisburg, a civilian guard employed at the Middletown Air Technical Service Command, shot and killed himself Thursday night with service revolver in front of the operations section, Assistant Coroner Frank Heidel reported Friday.

Guards found the man's body on the lawn when he failed to make a customary call. There was a bullet wound in his head.

## GAME ON SUNDAY

The Orrtanna and Arendtsville baseball teams will meet on the Cashtown field Sunday afternoon at 2 o'clock.

## ARRIVES IN CALIFORNIA

Sgt. Robert Wolford has arrived in California after spending over two years in the China-Burma-India theater of operations according to a telegram just received by his parents, Mr. and Mrs. Albert Wolford, 344 Baltimore street. Sgt. Wolford expects to receive a furlough in the near future.

## FARM AND STORE SOLD

Walter J. Goldsmith and Ruth R. Goldsmith have sold their eleven acre farm, store and gas station together with store stock and equipment, located along the Baltimore pike in Mt. Joy township, to Glenn S. Kaughman, of Bristol, Pa. Possession on or before September 1. Sale was made through John C. Bream.

## CONFERENCE MEETING

The last quarterly conference for the year for the Biglerville United Brethren church will be held Sunday evening at 8 o'clock at the Biglerville church. The Rev. Dr. John H. Ness, conference superintendent, will preside. All officers are requested to be present.

# BIG 3 FAILS TO DEAL WITH SLAVE LABOR

By JAMES MARLOW

Washington, Aug. 4 (AP)—Germans must be lying awake nights now, trying to puzzle out one thing which was said in the Potsdam declaration, and one which wasn't even mentioned.

The one not mentioned by President Truman, Marshal Stalin and Prime Minister Attlee when they drew up the declaration was this: Will the United Nations, or some of them, force Germans to work for them as part of Germany's reparations for the damage done to other countries?

Nowhere in the Potsdam declaration is any mention of using German workers in labor battalions in other countries.

## Wonder About Future

For that reason—because the declaration speaks only of reparations—the Germans must be wondering what their future holds for them.

France already is using German workers in the job of reconstruction. Russia is using the labor of two and a half million German war prisoners.

But here's the point which was mentioned and which must be causing thoughtful Germans much concern. It was a single sentence tucked into the declaration.

It says the Big Three will see to it that there is: "Complete disarmament and demilitarization of Germany and the elimination or control of all German industry that could be used for military production."

What does that mean? The language is so broad, it could mean almost anything. That's what makes it so terrific.

The United Nations will see that Germany is allowed to keep some industries that can't be turned into war use.

## Control Or Lose

If it allows Germany to keep a plant which might be turned to war use—such as a steel mill—it will either keep stern controls on its production or cut the mill down so much that it won't be a war potential.

Undoubtedly big chunks of German industry will be broken up or carted off to other countries.

For example: Germany has been making aluminum. But it did it at great expense. The raw material, bauxite, it got from the Balkans. It got its electric power from coal.

Using coal for electric power—even though Germany got the coal from its own mines—is a lot more expensive than getting electric power from water power.

It's possible Germany may be stripped of its aluminum plants, that they may be moved to a European country which has natural power.

## General Policy

The government didn't mind giving the subsidy so long as those machine tool plants—so vital in suddenly whipping into shape machinery for war plants—were able to expand.

The Potsdam declaration on this point really laid down only a general policy.

The Allies will decide what plants were over-expanded and can be cut down, what plants are purely war plants—like smokeless powder factories—and can be destroyed.

But the plants which have been—and could again—be turned into war plants are at the heart of German industry. Automobile factories are an example.

A plant which turned out farm tractors, if not cut down or controlled, could very quickly, if Germany got war-minded again, begin turning out tanks.

## IN MARITIME SERVICE

Stanley M. Gochenauer, youngest son of Mr. and Mrs. H. J. Gochenauer, Florida Dale, has enlisted in the Maritime Service and entered training at Sheepshead Bay, N. Y., August 1.

## TRUE SWEETHEARTS

State College, Pa., Aug. 4 (AP)—Chances are that when G. I. Joe comes home, he'll find his wife or sweetheart has been true, a poll at Pennsylvania State college shows.

Dr. C. R. Adams, associate professor of education and psychology, who conducted the canvass, said married girls answered an emphatic "no" when asked whether they are dating while their husbands are in the service.

Engaged girls, Dr. Adams reported, said they would date only "by mutual agreement," "on platonic terms" or "under specific circumstances."

## INDIGNITY

Los Angeles, Aug. 4 (AP)—A jury of school boys might have rendered a different verdict but Judge Reuben S. Schmidt granted a divorce to a teacher Friday.

Mrs. Marjorie Anderson Maxwell, 29, the school teacher, won her suit in which she testified her husband had spanked her.

"He told me he would spank me like a naughty pupil every time he felt it was necessary—and he put me over his knee to do it," she told the court.

## DEPRIVATION

Dallas, Aug. 4 (AP)—As Mrs. N. M. Corley was sleeping under an electric fan while the thermometer hovered in the nineties, a thief entered the room and took the fan.

# Upper Communities

Miss Barbara Olsen, of Colonial Park, is spending the week with her uncle and aunt, Mr. and Mrs. M. C. Black, Biglerville R. D.

Lt. Commander and Mrs. Urwin Runtree, of Washington, D. C., were recent guests of Mrs. Rowntrees parents, Mr. and Mrs. S. Gray Biglham, of Biglerville.

David Plank, of Gettysburg, will be present at the Biglerville Teen-Age Canteen Friday evening to help with the outlining of a ping-pong program which will lead to the playing in tournaments. All teenagers are urged to be present. Mr. and Mrs. S. A. Ehlman and Mr. and Mrs. Harry Geiselman will be the adult guests for the evening.

Mrs. O. A. Nary, of Biglerville, attended the funeral of her sister-in-law, Mrs. William Rumble, in Kenilworth, New Jersey, Wednesday.

Dr. and Mrs. Leo T. Brown, Washington, D. C., were recent guests of Mr. and Mrs. Cyrus G. Bucher, Biglerville.

The Misses Betty and Helen Slaybaugh, Biglerville, left today to spend a few days with Mrs. Edgar Benner, State College.

Members of the CHM club met at the Biglerville plant of the C. H. Musselman company Friday evening. Clair Shillito, president, presided. Routine business was transacted and Sterling Birginsmith and Tony Clapper were introduced as new members. The program committee represented by Russell Hackman, called on men within the foreman's group to speak on the following subjects:

"Good Housekeeping in Plants," Clair Shillito; "Absenteeism," C. E. Honsaker; "Better Appearance of Finished Products," E. E. Unger. Round-table discussions followed each talk. The next meeting will be held September 7.

The Upper County Lions club, in conjunction with members of the Fairfield club, will hold a family picnic meeting at Forest Grove park, Hanover, next Tuesday evening.

Mr. and Mrs. Elliott Taylor and daughter, Helen, and sons, Tommy Douglas and John, Biglerville R. D.; Mr. and Mrs. Donald Tyson and sons, Charles and Kenneth, Gardners R. D.; Major and Mrs. Charles Tilton and daughters, Anne and Margaret, and son, William, Florida Dale; Miss Elsie Wagner, Table Rock, and Mrs. Chester J. Tyson, Jr., and son, Chester, 3rd, and daughter, Nan, Haddonfield, N. J., have returned from a week's vacation at Camp Keewadin near Annapolis, Md.

## Nelson Heads For 10th Tourney Title

Toronto, Aug. 4 (AP)—Byron Nelson, the golfing wizard from Toledo, Ohio, led 61 finalists into the last 36 holes of the \$10,000 Canadian open today after giving the other pros some consolation by saying he would start gradual retirement from tournament competition in about two years.

The big man of the links, who has won nine straight tournaments and has earned \$45,200 in war bonds this year, said that in two years he will devote more and more time to his business until he finally is out of the play for pay game.

It may have been the toughened Thronhill course that influenced him for yesterday he went over par for the first time in many months with a two-over 72 for a 36-hole total of 140.

At that he held a two-stroke lead over runner-up Willie Goggin of White Plains who also carded a 72 for a 142. Ed Furgol, the former amateur from Utica, N. Y., was third with 71-72-143.

## LaGuardia Plans "No Deal" Party

New York, Aug. 4 (AP)—Birth of a new political party—the "No Deal"—was awaited today by political leaders in New York City's municipal campaign.

Backed by Mayor F. H. La Guardia who once had a hand in the formation of New York's Fusion Party and then in the American Labor Party, after having been a member of the Socialist Party and then the Republican Party, the new scheme adds to the mixup in New York's campaign.

Newbold Morris Republican, would be La Guardia's "no deal" candidate for mayor, according to speculation, to run against Judge Jonah Goldstein, Democrat who is running on the Republican-Liberal ticket, and against former Brooklyn District Attorney William O'Dwyer, Democrat who is running on the Democratic and American Labor tickets.

## QUEEN OR PRINCESS

Kansas City, Aug. 4 (AP)—Lt. Lambert Blass wrote his parents that on a recent rest period on the Isle of Capri he had hob-nobbed with a "real live countess."

His dad, however, wasn't impressed. "My dear son," he wrote, "I can remember when you used to come home and tell me about the various 'queens' that you used to meet at dances in Kansas City. Now, sonny boy, don't you dare bring me home a countess. I want nothing but a queen, but, in a pinch, will settle for a princess."

## Arendtsville

Two recreational leaders from Camp Nawakwa have been secured by the committee planning games for the children at the community picnic to be held at the Arendtsville park, Wednesday, August 8. The children's games and contests will follow contests for adults, which begin at four o'clock. These leaders will conduct games and contests especially for those whose ages are from 12 to 18 years. Mrs. Martha Lower and her committee will have charge of the games for those below eight years. Mrs. Herbert Bryan and her committee will arrange contests for adults. The United Brethren band from Quincy will give a concert from 8 to 10 o'clock. During the intermission, Chaplain Major George Berkheimer, pastor of Trinity Lutheran church, will give a talk. Prizes for those winning contests will be awarded during this period.

Mr. and Mrs. Paul Bream, Washington, D. C., are guests of Mr. and Mrs. Harry Trostle. Mr. and Mrs. Harold Trostle and daughter, of Chambersburg, were also recent guests of Mr. Trostle's parents.

Mr. and Mrs. Charles Zeigler, Mrs. Marshall Longanecker and Mrs. Eva Rexroth, returned Wednesday from a week's automobile trip to Niagara Falls and points in New York.

# CHINESE SEEK TO TRAP JAPS

Chungking, Aug. 4 (AP)—Chinese troops have launched a drive apparently aimed at cutting the Hunan-Kwangsi railroad in Hunan Province and blocking the main avenue of the Japanese withdrawal from Kwangsi Province, the high command indicated today.

The Chinese, after recapturing the important Japanese stronghold of Sinning, a Hunan Province stronghold safeguarding the enemy's western flank, smashed ahead in the direction of the important rail town of Tungan in pursuit of the enemy. Tungan, in Hunan, is only 100 miles away between Kweilin and the Japanese Bastion of Hengyang, where the Hunan-Kwangsi railroad meets the Canton-Hankow line.

Without giving distances, the high command said "much progress" had been made in the drive toward Tungan, which is about 90 miles north-east of Kweilin.

Exploiting the Japanese withdrawal, Chinese troops pressed along the Hunan-Kwangsi line from liberated Lingchuan, 15 miles north-east of Kweilin, and gained over three miles in the push toward Hingang, which is 32 miles northeast of Kweilin.

## Wounded Last November

After a 20-day furlough home, Pfc. Warner served in camps in the States and arrived in France in August, 1944. In November of the same year he was blown out of his foxhole and wounded. After he was discharged from a hospital, he was transferred from the infantry to field artillery, of which he was a member when he died.

He was awarded the Good Conduct Medal, the Sharpshooter Medal and several battle stars.

Before entering the Army, he was a member of the North Middleton Evangelical church, and while in the service was affiliated with the Catholic church.

In addition to his parents, he is survived by three sisters, Margaret J. Warner, Gardners; Mrs. Edgar Penner and Dorothy Warner, Carlisle, and four brothers, Edmond, Lester M. and Chester A., a veteran wounded in North Africa in April, 1943, and discharged in September, 1944, all of Carlisle, and Pvt. Melvin L. Warner, serving in Germany.

## CUBS TROUNCE REDS FOR 15TH STRAIGHT TIME

By JACK HAND  
(Associated Press Sports Writer)  
Charley Grimm can thank his "cousins from Cincinnati" for paving the pennant road for his Chicago Cubs by contributing 15 straight games to the league leaders in the season's most consistent performance.

Although the Bruins are far from "in" with a six-game lead, their main worry today is not the Cardinals but the thought that this happy season series with the Reds has only seven more games to go. Their favorite playmates took it on the chin again yesterday, but twice, bowing in both halves of a two-night doubleheader before the superior chucking of a couple of fellows named Hank (Wyse and Borowy).

**Sensational Hurling**  
Although Deacon Bill McKechnie of the Reds thinks the Cubs have trouble ahead in St. Louis, his team hasn't been able to beat the leaders once all year. The record for such matters is 21 out of 22 meetings in a season, held jointly by the 1927 Yankees, 1937 Pirates and 1939 Cubs. Nobody ever has swept a complete set of 22 tilts in modern days.

Chicago pitching has been nothing short of sensational in the last few weeks and in the last 10 games, the Bruins have won nine with eight complete jobs and an average of about six hits per tilt for the opposition.

Wyse is the big winner with 16 to his credit after last night's 11-5 romp over Cincinnati in the first game and Borowy copped his second straight since his purchase from the Yankees with a five-hit, 9-1 decision over Vern Kennedy.

Chasing the Bruins is discouraging business but St. Louis continues to tag along, trimming Pittsburgh, 5-1, behind George Dockins' effective six-hit tossing to the dismay of 22,218 Forbes Field customers.

**Brooklyn Spits**  
Brooklyn dropped back a step by splitting a pair with Boston, the only day games on the big league program. Hal Gregg was robbed of a no-hitter in the first tilt when Joe Medwick, a former Dodger, singled in the eighth and lost his shutout on an unearned run. Luis Olmo's two-run homer in the third made the win certain 5-1 but rookie Ed Wright, making his first big league start since moving up from Indianapolis, outpitched Ralph Branca, another American association grad, to give Boston a 5-3 margin for an even break.

The New York Giants and Phillies were not scheduled. Washington continued to creep closer to front-running Detroit, taking a double from Boston while the Tigers were being blanked 5-0 by Chicago's night game specialist, Earl Caldwell.

Ossie Bluege's Senators now have won six in succession with six different starting pitchers going the route. Al Carrasquel, throwing his first complete game of the year, took the first 7-3 and the veteran Johnny Niggeling regained his winning stride in the 3-1 nightcap.

Ernie Bonham, reported to be one of the Yankees on the trading block, copped his third in a row, 4-1, against Philadelphia as Russ Chisholm pitched bowed in his sixth successive defeat.

St. Louis shaded Cleveland, 6-5, on a four-run rally in the sixth inning including Vern Stephens' 15th homer.

## YORK LOSES TWO TO LANCASTER

(By The Associated Press)  
The Lancaster Red Roses defeated York 4-3 and 8-7 in a double-header last night to extend their Interstate league lead to six and one-half games over second place Wilmington whose twin ball with Hagerstown was postponed because of rain.

At the same time, Trenton's Spartans took a tighter hold on the third place spot by winning both ends of a double-header from the Allentown Redbirds, 5-4 and 8-5.

Lancaster had close shaves in winning their pair from the White Roses, Stan Stenoff, former York hurler, rescued the nightcap after the White Roses surged ahead in the sixth with a 6-run rally. The Red Roses captured the opener when York's Froelich walked Harry Winters in the sixth with bases loaded to forge in the winning run.

Wait Alston proved to be the big man behind Trenton's double win over the Redbirds. Alston's grand slam homer in the final inning of the first game gave the Spartans their first victory and he also hit one with the bases empty in the second game to feature the Trenton attack on Allentown's George Koby.

## Sports Roundup

By FRANK KENESSON  
(Pinch-hitting for Hugh Fullerton, Jr.)

**Detroit, Aug. 4 (AP)—Baseball's** statistics hounds who still can't understand why the Detroit Tigers are leading the American league by plenty with a run production that ranks sixth in the league can take a look at Big Al Benton's pitching record as a pointed "fr instance."

Benton, the navy dischargee with a 0.89 earned run average, started 14 times and stayed through 10 complete games while winning 10 and losing two.

In his 111 innings opponents have made 78 hits (19 of them the infield variety) and scored just 14 runs (three of them unearned).

Working the equivalent of 12 full games, Benton has given only nine extra-base hits, losing 1-0 to Washington and 2-1 to Philadelphia. Pitching's still the answer.

**BE IT EVER SO HUMBLE**  
The Tigers, flirting with a .500 percentage on the road, owe their current success to an exceptional home average of .674, a clip that swelled the Briggs stadium attendance total to 673,562 paid for 46 games.

**BIG BITE**  
The University of Michigan, taking on both army and navy in football next fall in addition to a stiff big ten schedule, has only two regulars—Center Jack Watts and Quarterback Joe Lonsetto—from a 1944 eleven that lost just twice, to Indiana and Ohio State.

## TIPPY LARKIN UPSETS JOYCE

By TED MEIER  
New York, Aug. 4 (AP)—Tippy Larkin was back on boxing's big time today and in the best shape of his career.

The Garfield, N. J., scrapper, a 7 to 5 underdog, surprised even his closest friends with a decisive 10-round decision over Willie Joyce, Gary, Ind., negro at Madison Square Garden last night. It was the end of Willie's three-bout winning streak in the Eighth avenue arena.

A crowd of 13,415 (gross gate \$60,266) saw Larkin outbox and out-punch Joyce in his first major bout since he recently ended a year's lay-off from the ring.

Only for a brief few seconds in the 10th and last round did it seem that Joyce might pull the bout out of the fire with a knockout triumph. A solid right landed on Larkin's jaw during a furious exchange. Larkin's knees sagged, but he pulled himself together and was clearly the better at the end.

At 138½ pounds, Tippy was spry and peppy and seemed like a dancing master compared to Joyce, who, however, continually forced the fight by boring in. Joyce appeared slow at 137½. In his two winning fights against Ike Williams Joyce weighed 135½ and 136 while against Bobby Ruffin he was 136½.

## Favor Pot O'Luck In Handicap Today

Chicago, Aug. 4 (AP)—Pot O'Luck, Warren Wright's stretch running three-year-old colt that finished second in the Kentucky Derby was favored today as nine thoroughbreds lined up for the \$55,500 Arlington Handicap, but he may have trouble with a little three-year-old filly named Busher.

Busher, owned by movie magnate Louis B. Mayer and a daughter of War Admiral, has been a sensation over long routes, and is in the best spot to upset the Wright golf in today's mile and a quarter race. She already has won \$104,720 with five firsts, and one second in six starts this year. These include the \$25,000 Cleopatra Handicap here, and the \$50,000 Santa Margarita Handicap and the San Vicente Handicap at Santa Anita before she was shipped to Chicago.

## FAKE JAP RED CROSS FAILS TO FOOL YANKEES

Manila, Aug. 4 (AP)—A Japanese hospital ship carrying contraband arms and apparently fake patients has been seized in the Banda sea north of Dutch-Portuguese Timor and is being brought into an Allied port today for investigation, General MacArthur's headquarters announced.

A boarding party from the blockading Allied Seventh fleet found machine guns, 75 millimeter shells and other ammunition packed in boxes marked "medical supplies," MacArthur said.

The accosted vessel was clearly marked with safe-conduct Red Crosses on its sides and upright on the superstructure.

**1500 Men Aboard**  
There were approximately 1,500 men aboard listed as patients. When bandages were removed from some of them no wounds were found, the announcement said.

The ship's route was not disclosed. The Banda sea is roughly 400 miles north of Australia. The area is filled with small and large islands, mostly Dutch, which have been occupied by the Japanese since the fall of the Netherlands East Indies. The hospital ship could have been transferring men and arms among the blockaded island outposts.

Boarding of the vessel by the party from the Allied Seventh fleet was in strict conformity with international law and the Geneva conventions to ascertain if improper use was being made of a hospital ship.

## DiMaggio Avoids Discharge Query

St. Petersburg, Fla., Aug. 4 (AP)—S/Sgt. Joe DiMaggio says he could condition himself for play in a few weeks and that's the only comment he'll make when questioned about reports he is in line for a discharge.

The former New York Yankee outfielder is at the Army Air Forces' Don-Cesar convalescent hospital here suffering from what doctors have diagnosed as a duodenal stomach ulcer.

## WAR TANGLED FINANCES OF SUEZ CANAL

By WILLIAM F. FRYE  
(Substituting for Hal Boyle)

Paris, (AP)—The Suez Canal company, which broke into the news during a lend-lease debate in the U. S. House of Representatives, is trying to catch up on five years of bookkeeping.

The debate in the American Congress centered about Britain's refusal to put transit charges for American vessels using Suez during the war on the reverse lend-lease account. The British Foreign Office said it was not in Britain's power to waive tolls.

Who owns the Suez canal? The waterway long has been such a vital link in Britain's imperial life that the popular impression in the United States has been that it was British government property, just as the Panama canal is American government property.

**French Corporation**  
Actually, the canal is owned by a French corporation—Compagnie Universelle du Canal Maritime de Suez—organized with restrictions designed to prevent any single country or private stockholder from controlling the company.

The British government and commercial interests frequently have come out second best in an attempt to get revisions of canal tolls and achieve other changes in the company's operations. The British government is the largest single stockholder, but single shareholders are prohibited from casting more than ten votes at company meetings regardless of the total number of shares held.

Unless the Germans managed to acquire the bulk of them during the occupation, the majority shares are believed to be held in France as before the war. They are all privately owned, the French government never owning a share. The shares can be sold freely without registration of sales so the company has not yet been able to determine just how many, if any, were acquired by Germans.

**Nazis Watched Office**  
The company, at the moment, does not know its financial position. The last dividends were distributed in 1939. The main office in Paris remained open throughout the occupation but had little to do. It was watched closely by the Germans.

The canal's operating offices in Egypt kept records and the main offices now are trying to pull the information together. A spokesman said the company hoped to be ready sometime this winter with annual reports for 1940, 1941 and 1942, and then be able to bring accounts up to date in another six months.

The spokesman said it was extremely unlikely there would be any dividends for the war years because the great drop in commercial shipping was not compensated by increased military traffic and revenues were almost certain to be below the profit level.

**Profits Are Split**

In past years, however, the company has been an extremely profitable enterprise and \$50 par stock currently is carried on British government books at approximately \$300. Britain's last dividend receipts on 353,504 shares totaled \$5,600,000 for 1939.

Profits of the company are split several ways. The Egyptian government is not a stockholder but by terms of the canal concession gets 15 per cent of the profits. Ten per cent of the profits are set aside for holders of founders' shares. Directors get two per cent and two per cent is distributed among 3,000 employees. The rest is devoted to dividends on ordinary shares.

**Steps in Lawn Soil Repairing**  
The actual work of repairing defective lawn soils is more laborious than technical; preparations for the task are often more important than the processes of completion. To simplify the various steps, lawn repair may be divided into four major phases—(1) Obtain needed fertile loam in July and keep it watered and turned occasionally to promote germination of all the weed seeds it contains; (2) Incorporate this loam into the lawn soil in late August; (3) Sow seed about the middle of September; and (4) Keep the new grass adequately watered and otherwise cared for until winter arrives.

As mentioned in previous discussions of lawn repairing, most lawns fail because grass is starved—starved for plant foods and moisture. Examination of dead or dying grass usually reveals hard, shallow soils wholly unsuited for grass to root freely and lacking organic matter to hold moisture and keep the lower or moisture-holding stratum mellow and moist. Herein is the most essential work of repair.

The repair loam, obtained from a fertile field or garden and piled along one side of the lawn in early July to permit forced germination of weed seed, should be apportioned to the lawn area. In all cases the supply should be liberal. Then the work begins, advisedly in late August. A trench is dug along one entire side, about 6 to 10 inches deep, depending on how near the hard subsoil lies to the surface, and about 8 inches wide. Repair should not disturb too much of the impervious subsoil where it is deeper than 6 inches from the surface. Move the soil removed from the first trench to the far or opposite side of the lawn. That is where it will finally be needed.

Along the first dug trench dig another of comparable width and depth, throwing the soil over into the first trench and with it sufficient fertile loam from the procured heap to render the worked-over depth mellow and well balanced with fertility and organic matter. As succeeding trenches are dug and fertile loam mixed with the present soil the preceding trenches are filled. Thus, when the last trench on the opposite side of the lawn is dug, soil taken from the first trench is used to fill it after the fertile loam is added.

**Get Rid of Weeds**

Enough of the repair loam should be reserved to form a 3-inch layer of rich soil over the entire lawn surface. This is the true rooting

PURPLE MARTIN

The martin wings the air above.  
 Unto the ground he seldom comes  
 To share the petty bickering of  
 The sparrows over man's poor  
 crumbs.

Aloft the purple martin stays,  
 Where he is free to dart and soar.  
 A self-reliant roe he plays.  
 No beggar he, from doro to door.

The martin's realm is of the air,  
 The winds of summertime he  
 rides,  
 And he is proud and happy there,  
 Content with what his realm provides.

# Today's Talk

THE JOY-OF CREATION

Kipling, in his book "The Light That Failed," said this about his main character: "He fell to work, whistling softly, and was swallowed up in the clean, clear joy of creation."

I wonder if this isn't about the best explanation, or indeed the secret, of all happiness in work. The joy of creation. It doesn't matter much so long as what is created serves some useful purpose. I love to watch a painter or sculptor work. You keep seeing something of the artist creeping into every stroke of the brush or tap of the chisel. He is experiencing the joy of creation.

The human mind is naturally creative. For this reason, everything should be done to keep it active and in the mood for creating. Toys, blocks and mechanical playthings are stimulants to the child mind, and are highly educational in early arousing the joy of creation. Many a ship builder sailed his first boat in his mother's tub!

I can understand the joy of the writer of novels as he creates his characters, endowing them with what he will so that they may have flesh and blood to them and thus live and move with this story.

The early settlers of this great continent were sturdy, inventive folk. They cleared the forests, made their own tools, built their own crude homes, and were happy, though hard worked, in the creation of cities, and their own nation. Imagine the joy of those two Wright brothers, of Dayton, Ohio, as they worked in their bicycle shop on the first planes, and the joy of seeing them fly for the first time!

I write under the most improved electric light, yet the greatest joy came to Edison, after he had formed a tiny filament from thread and lamp black, and saw, for the first time, his dream of an electric light come true. That must have been a joy that bubbled in his heart!

It is significant that the joy of the creator is nearly always passed on to create joy anew in millions of lives. For example, our great musical compositions—songs, operas, and orchestras.

REG. U. S. PAT. OFF.  
 BY FREDERICK C. RUSSELL  
 Member S. & E.

We don't know how many of the new cars will have automatic gears, but the betting is that there will be plenty of shiftless drivers.

Among the odd noises which baffle and worry us are those produced by brake shoes. They may rub against the backing plate or, if loose, knock against it. I have heard of various other noises which suggest all manner of serious conditions especially with front wheels. Incorrect adjustment of the shoes may account for some noises, while looseness of the brake shoe return springs are certain to be contributing causes. Sometimes such noises won't be noticed until the front wheels are cut to the extreme right or left.

The newest convertible top for postwar cars will feature a glass rear window that automatically lowers and raises.

By rust-proofing valve springs it will be possible to check their breakage. Currently they break because of rusting from water in the oil.

Plastic upholstery, in addition to being impervious to just about everything, won't burn.

One of the leading truck companies is adopting rubber springs for its motor coaches. Installation is most unconventional, construction being like nothing you would expect. A steel outer shell is mounted on the axle while a central shaft connects through a shackle and arm to the frame. Natural rubber is the bond between the shell and the shaft.

One For The Book

Since the clutch is actually an extension of the engine shaft, when the clutch is engaged, it is a fact that any misalignment will result in faulty clutch action. In fact, misalignment is the leading cause of such conditions as squealing, slippage, chatter, grabbing and noise in the throwout bearing. Misalignment will also cause excessive wear on major clutch parts. Keep it in mind if the clutch misbehaves. It will save a lot of expensive and often fruitless clutch work.

"This being the season for 'vapor lock' perhaps a few readers would be interested to know just what it is

and what should be done about it. We want fuel to go into vapor form after it reaches the throat of the carburetor, but when vapor lock develops the fuel goes into gas form in the lines, the fuel pump or the carburetor bowl. As soon as this happens it blocks its own flow, and the engine starts to gasp. It may stall and refuse to start again until the engine cools off.

"The best way to avoid this trouble is to keep the engine running as cool as possible. In some cases it is necessary to shield the lines and carburetor with a baffle, but normally this shouldn't be needed. If drivers would learn to roll at the car's easiest running speed instead of forcing the engine or dragging along there would be a lot less trouble. An occasional pause under a shady tree will also help. Always go on down the other side of a hill rather than stopping at the top."

When clutch plate stick because oil or grease has got on them it is handy to know that there is a way to break them apart so that you can at least get to your destination other than at the end of a tow rope. The trick is to put the car in gear, then set the hand brake and crank the engine, holding the clutch pedal down. Torn between the engine's power and the resistance of the brakes the plates will usually separate. It is well to warm up the engine first so that when you crank it will immediately go into action.

Heating From Leanness

It took G. M. N. a long time to reach the conclusion that the chronic overheating of the engine of his heavy car was entirely due to running on too lean carburetor mixture. Just because he took so many detours he is all the more impressed by his final discovery. Everything had been considered in the hunt for an answer to the persistent overheating. Finally the search centered on mixture. Each of the idling screws was given a half turn to the left, enriching the basic mixture. Then the car was tried during a hot spell. Much to the owner's surprise the job showed no inclination to overheat. Actually the engine had been forced to strain to power the car, this being reflected in much

higher operating temperature.

Some engines require more frequent attention to ignition timing, their inclination being to go late more rapidly than is normal for the average motor.

The clearance of the rear brake shoes on some cars can be estimated by the way the hand brake holds. If the hand brake operates mechanically through the rear brake shoes any extra clearance is naturally reflected in need for pulling the handle way back to hold the car.

One of the reassuring things about an automobile is the way it can be driven even when the operator is badly handicapped physically. If the driver's arm is missing he can convey signals to those behind by use of automatic directional lights and arrows. When the right arm is missing it is merely a matter of using a car with an automatic shift. Missing legs appear to be even less of a problem. If either of the limbs is missing or incapacitated, foot control is obtained by use of a bar

The idea that a battery is ruined if cracks develop on its top is a superstition that dates from the days when the case was made of wood. Then as well as now any cracks on the top simply involve the sealing compound which is readily covered again by the simple process of resealing, or reflaming as the battery men say. Don't go along postponing such resealing because cracks permit loss of electrolyte especially in the summer months when

**Having Their Troubles**

Q. What is the proper way to clean the jets of a carburetor? L. R. B.

A. Service men use compressed air, but a bicycle pump will furnish enough air to blow out the jets. Never use a wire or anything that would injure the jets. Since jets tend to corrode, and thus enlarge, it is preferable to install new ones if the originals have been in service for any length of time.

## VANGUARD OF 28TH AT GAP

Indianapolis Gap, Pa., Aug. 3 (AP)

The first contingent of veterans of the 28th Division, former Pennsylvania National guard unit, arrived here last night for processing prior to 30-day furloughs and reassignment to Pacific duty.

Weighted with souvenirs and weary after the trip from Boston where their transport docked yesterday, the men had only one immediate goal—to get the "paperwork done" to that they could get home. Post authorities said every man would be ready for furlough by 1 p. m. today.

The group that scrambled off the train at Lackdale station last night was made up of 512 enlisted men and 56 officers. Together with the 28th were a few Infantrymen of the 109th Division and other groups from the 103rd Engineers, the 103rd Medical Corps, and the 107th and 109th Field Artillery.

As soon as the processing work is done, the men will assemble to hear speeches by Gov. Edward Martin and Brig. Gen. Malcolm Lindsey, post commandant.

After their 30 days with their families, the veterans who broke the German line in northern France and fought their way out of the trap at Bastogne during the battle of the Bulge, will reassemble in California to train for action against the Japs.

mon cause in overheating. On the road the heat sometimes causes temporary vapor lock, fuel going into vapor in the lines and thus blocking its own flow. When the engine runs after switching off the ignition the evidence is that it is overheating.

Q The car which I recently bought is showing signs of oil in the radiator. Does this mean that there is a head gasket leak? Wm. L.

A Don't be too pessimistic over this. The former owner may have used a little too much emulsifying oil in the radiator to check rusting. The oil is apt to collect around the filler pipe. I would flush out the system and give it another try. If there is no overheating you're still on safe ground.

Q Will it help get a quicker restart with a hot engine to open the throttle when switching off the ignition? H. N. M.

A Don't try any tricks in switching off the engine. Just remember

to open the throttle wide (without pumping on accelerator) when you want to re-start a hot engine. This lets more air into the cylinders.

Mr. Russell will answer questions regarding the safe care and operation of your car. Just address him care of The Gettysburg Times and enclose stamped, self-addressed envelope for a personal reply.

## Prisoner Loses Strange Appeal

Philadelphia, Aug. 4 (AP)—

Charles S. Jennings, Eastern state penitentiary inmate who claimed loss of "constitutional rights" when prison officials withheld religious tracts from him, lost an appeal in the U. S. circuit court here yesterday.

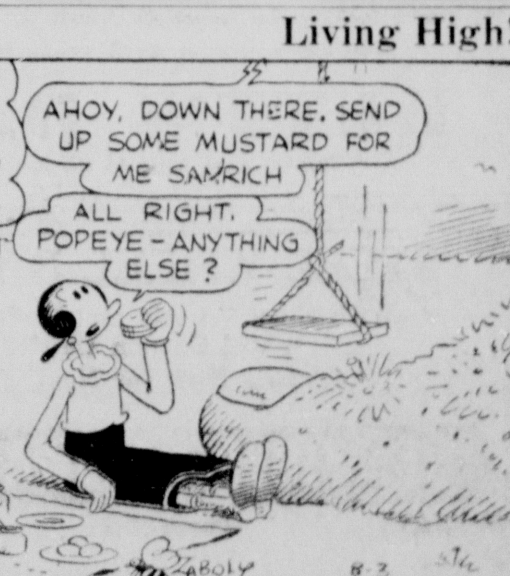

Jennings, convicted of robbery, complained in a petition to the state supreme court that when he entered the penitentiary, the warden had confiscated literature "vital to his spiritual well-being." Judge John Briggs sustained the state tribunal's ruling granting the warden the right to censor pamphlets and magazines going into the prison.

**MONDAY AND TUESDAY**  
Everyone dances in "The Three Caballeros." Walt Disney's new musical full-length feature contains more songs and dances than in any other previous Disney film to date. Donald Duck, Joe Carroca, Panchito, Aurora Miranda from Mexico and many other famous Latin personalities take their turn at a bit of terpel chore. The extensive choreography in the technicolor feature, which includes everything from ancient Mexican rituals to modern boogie-woogie, was directed by Billy Daniels, noted dancer of stage and films, and Carmelita Maraccla, distinguished ballet coach and dance star.

**WEDNESDAY**  
In a heart-warming adventure story that finds him alternately rough riding, rough housing and romancing, James Craig, in Metro-Goldwyn-Mayer's "Gentle Annie," which plays Wednesday at the Majestic theatre, makes his strongest bid for the stardom predicted for him.

Craig, in the lead role of this screen version of MacKinlay Kantor's best-seller novel, takes the side of the law, portraying a two-gun United States Marshal battling outlawry in the colorful Oklahoma pioneer territory at the turn of the century.

Donna Reed plays the feminine lead.

**THURSDAY, FRIDAY, SATURDAY**

Greer Garson, who co-stars with Gregory Peck in "The Valley of Decision."

Romantic... powerful... colorful... tender—"The Valley of Decision." Metro-Goldwyn-Mayer's adaptation of the Marcia Davenport best-seller, which opens Thursday and continues Friday and Saturday at the Majestic theatre, is one of the most provocative love stories ever to unfold before the cameras, and is enacted by one of the greatest stellar casts ever assembled: Greer Garson, first lady of the screen; Gregory Peck, sensational newcomer, Donald Crisp, Lionel Barrymore, two of the screen's greatest actors, Preston Foster, Gladys Cooper, Marsha Hunt, Reginald Owen, Dan Duryea, Jessica Tandy.

A perfectly balanced screen story of romance, drama and action, "The Valley of Decision" tells of an Irish servant girl, Mary Rafferty, and the scion of a wealthy Pittsburgh steel family, Gregory Peck, and their love which spurs class, time, convention.

San Diego, Calif., Aug. 4 (AP)—There's no telling what the government will sue next.

Yesterday it was a wooden door, without hinges, knobs or peepholes. Customs officials said the door was part of a shipment that included 10 tires, which someone was trying to take into Mexico without an export license. So the government seized the tires, the truck and the wooden door. Then they filed a suit to make them property of the nation.

Chapter 6

"I think," said Evelyn, "they'd like to flood the market with inferior pumps, make all they could from the war boom, and then, if necessary, close down."

"Where does Carla fit into this?"

"In the first place she's crazy about Mark Sheridan, almost as crazy about him as she is about Carla. I believe the people who are trying to oust Mr. Sheridan have offered her some kind of a bonus if she can influence him their way. I know they've offered Mr. Sheridan a glamorous salary if he'll act as sales manager and let production alone, allow them to reorganize and handle things their way."

"Carla would like that salary, as Mrs. Sheridan."

Jane lighted her cigarettes and sat down. "Still doesn't explain why he'd be afraid of me; afraid I'd—"

"But don't you see?" Evelyn was exasperated. "He's no fool. He knows they'll try to trap him some way, and he doesn't know who'll be used for bait or what kind of a trap they'll spring, and being such a nitwit about women he naturally—"

The telephone bell shrilled, and Jane arose. "That," she remarked, "is utterly foolish. Business men don't stoop—just a minute."

It was several minutes before she returned from the hallway, and when she did her long eyes had rounded.

"Evelyn," she said soberly, "I apologize. You are right in one thing at least."

"Carla?"

"Yes. A friend of mine just overheard Carla and Mr. Haskins planning a neat little drama guaranteed to deliver Carla into Sheridan's arm and Sheridan into the temporary power of certain board members."

"Evelyn, I'm going to have to trust you, because I need help. I do trust you, naturally, but this trust will mean you must not reveal by even a facial expression that you identify me."

The slim girl stood up and thrust out her hand. "I trust you, instinctively," she said.

"I'm going to have to leave town right away. I want you to remain here, answer all telephone calls and take all messages, and also, when Mr. Sheridan returns the papers in the morning, revise them and send them back. Will you do that?"

"Of course."

"Then get the airport and see if I can have a single to Sacramento on the next east-bound; call a cab and have it ready to take me to the port; then put in a long distance call for Mrs. Champ Stanton at Yellow Valley and ask her to have a car waiting for me at the Sacramento air terminal. You see, I have to be back in time to report for work as usual. I'll change while you do that."

"Y-yes," stammered Evelyn. "Mrs. Champ Stanton at Yellow Valley."

The old grandfather clock chimed 2 a. m. when Mrs. Champ Stanton propelled Jane into the house.

"No preliminaries," she warned; "no leading up to what you have to tell me. My heart won't stand it. . . . No, let's go in here to my room."

She gave Jane barely time to remove her topcoat, then asked irritably, "Well, what is it?"

"Your nice Mr. Lisle Carter has been double-crossing you. He owns nearly as much stock in the Sheridan Manufacturing Company as you do."

"He—what? Why, that—"

"So, acting as your proxy and controlling the votes of the men who represent him on the board, he and not Mark Sheridan has been responsible for—"

"Why, I'll wring his neck with my bare hands. How did you find out? How does he manage to hide his ownership? Now begin at the beginning and tell me everything."

**Anderson's Auction**  
Tuesday, August 7, 1945, at 1 O'clock in the Afternoon

33 Susquehanna county Holstein cows, eight are fresh, balance are springers, milking from 60 to 90 pounds of milk a day. I bought these cows myself and they are real. Three are registered and all are blood-tested. We will have one truck load of Virginia blood-tested cows. Also 10 or 15 good home cows, fresh and close springers. One carload of Virginia steers, from 400 to 700 pounds apiece. We will also have a lot of fresh cows, springers and milk cows, fat and trimmer's cows, fat bulls, steers and heifers, veal calves, fat hogs, pigs and shoats, horses and mules here on commission from far and near farmers and dealers.

If you have any kind of livestock to sell, be sure to bring it into the F. M. Anderson Livestock Market and we will get it sold for you for the high dollar and cash money. Get your check the same day. Commission charge is 3 per cent plus a small feed charge of 50c per head each day.

Sale every two weeks, rain or shine, at 1 p. m. Will also buy all kinds of livestock. Drop us a card.

**SELL YOUR CAR TO**

**Kuhn Auto Sales & Service**

EIGHT IMPORTANT REASONS WHY YOU SHOULD SELL YOUR CAR TO US

- 1 You don't have to spend money putting your car "in shape" to sell it. We buy it "as is."
- 2 We'll pay you the highest prevailing price—not a dime is subtracted. You get all of it.
- 3 You get cash for your car . . . immediately. No partial payments. No notes.
- 4 You can sell your car and forget it. No comeback on you for repairs.
- 5 No advertising expense. No appointments or price haggling. No one asking you to take another car in trade. Saves you time and eliminates trouble.
- 6 No risk of breaking a friendship. If you sell to a personal friend and the car "goes wrong," he may blame you.
- 7 No O.P.A. violations involved because you "didn't know" price ceiling regulations.
- 8 You'll get a square deal all 'round because we want your friendship now, and in the future when you may want to buy a car again.

If you don't need your car . . . sell it!
